

DS-2XC6745G0-IZHS EXIR Varifocal Dome Anti-Corrosion

- 316L stainless steel enclosure, protecting cameras to be used in corrosive environments, providing reliability and longevity compared to standard cameras
- A built-in heater allows for start-up in ultra-low temperatures to -40 °C
- Water and dust resistant (IP68) and vandal resistant (IK10)
- DarkFighter technology enables the capture of high quality color images in even the dimmest lighting environments

Typical Application

Hikvision products are classified into three levels according to their anti-corrosion performance. Refer to the following description to choose for your using environment.

This model has TOP-LEVEL PROTECTION.

| Level | Description |
|------------------------|---|
| Top-level protection | Hikvision products at this level are equipped for use in areas where professional anti- corrosion protection is a must. Typical application scenarios include coastlines, docks, chemical plants, and more. |
| Moderate protection | Hikvision products at this level are equipped for use in areas with moderate anti- corrosion demands. Typical application scenarios include coastal areas about 2 kilometers (1.24 miles) away from coastlines, as well as areas affected by acid rain. |
| No specific protection | Hikvision products at this level are equipped for use in areas where no specific anti- corrosion protection is needed. |
