

TECHNICAL DATASHEET

MAINS POWER CHARGER (EU)

Mains power charger is used to charge Reconeyez Detector and Bridge batteries.

NB! Mains power charger and solar battery are separate items.

ORDER CODES:
MAINS POWER CHARGER EU :72413
SOLAR BATTERY: 72410

ELECTRICAL PARAMETERS

Input voltage range	100-240 VAC, (50/60 Hz)
Max. charging current	2A
Max. battery voltage	4.2V
Battery NTC value	10k

ENVIRONMENTAL

Working temperature range -20 to +35C

IP rating 67

MECHANICAL

Mains power charger dimensions Consists of 2 components and connecting cables:
Power adapter 150 mm x 40 mm x 35 mm
Solar charger 40 mm x 25 mm x 25 mm

Cable length Total 11.5 m
(AC cable 1.5 m & DC cable 10 m)

Product weight (charger with cabling w/o battery) 1.2 kg
